REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

No prior art has been found to anticipate or render obvious the presently claimed subject matter. Specifically, none of the prior art of record discloses the combination of the limitations presented including the plughole and the pin both have a number of forty one and being aligned zigzag in horizontal rows; the outer fringe of the female coupling in the first connector and the corresponding inner fringe in the mouth of the male coupling of the second connector forming a tight sleeve-joint mechanism, at the top end of the male coupling of the second connector, the recess extending forwards to form a receptacle and the through hole for accommodating the fastening device, comprising the fixing portion at one end being fixed in the receptacle and extending outwardly to reach the inner space of the male coupling and forming the resilient extension arm; the pushbutton being fixedly disposed on the top end of the extension arm, and the fore end of the extension arm being located right under the through hole and extending upwardly to form a wedge-style tenon with an outward slope, when the pushbutton being depressed, the extension arm bent downwardly to sink the tenon under the through hole, and when these two connectors being butt-jointed, the tenon being engaged in the mortise formed in the top end of the female connector.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander D Gilman whose telephone number is 571 272-2004. The examiner can normally be reached on Monday-Friday, 10:30 a.m. - 8:00 p.m.
